### Text feedback

**Draft prompt and image to revise**

The person in the image is not practicing yoga dolphin pose, but in a different yoga pose. Because the prompt has already mentioned dolphin pose, the AI art model might not understand what is dolphin pose. To address this, the sentence prompt should be modified to specifically mention what is a dolphin pose: posture where one balances on the forearms with the legs lifted, forming an inverted V shape with the body.

A close-up view of an empty plate with no other objects on it, and an empty glass without orange juice on a wooden table, with a white background.

The image generated by the AI art generation model does not follow the user imagined IDEA of the scene as there are bananas on the plate and no orange juice in the glass. To address this, the sentence prompt can be modified to specify that there should be no bananas on the plate and no orange juice in the glass.

A detailed view of a hand holding an iPhone 12, with the fingers ready to take a screenshot by pressing the side button and the volume up button at the same time.

The dog in the generated image is not in the same color as the one in the given image. The dog in the given image is a black and white Cavalier King Charles Spaniel, while the dog in the generated image is a brown and white Cavalier King Charles Spaniel. To address this issue, the sentence prompt should be modified to specifically mention the breed of the dog as a black and white Cavalier King Charles Spaniel.

A logo design of a llama in a watercolor cartoon style, with a red beanie and scarf, standing on all fours, with a soft and pastel color palette, similar to the design in the given image.

The image generated by the AI art generation model does not follow the user imagined IDEA of the scene as there is no study area in the image. To address this, the sentence prompt should be modified to specifically mention the study area as a desk and a bookshelf, hand-drawn in a style that looks like a pen and ink sketch.

The image generated by the AI art generation model does not follow the user imagined IDEA of the scene as there are no bananas on the plate and orange juice in the glass. To address this, the sentence prompt can be modified to specify that there should be no bananas on the plate and no orange juice in the glass.

A room with a comfortable bed and a study area with a desk and a bookshelf, hand-drawn in a style that looks like a pen and ink sketch.

The dog in the generated image is not the same breed as the one in the given image. This is because the prompt mentions 'a man in a suit with his right hand raised in a friendly wave with his palm facing forward', which suggests a more formal and uniformed setting, whereas the given image shows a playful scene. To address this issue, the sentence prompt should be modified to specifically mention the breed of the dog as a Yorkshire Terrier.

A scene of a man in a suit with his right hand raised in a friendly wave with his palm facing forward, with the same style as the geometric dog image on the left.

The man in the generated image is not the same as the one in the given image. This is because the prompt mentions 'a man in a suit with his right hand raised in a friendly wave with his palm facing forward', but the AI art model can not understand image inputs. To address this issue, the sentence prompt should be modified to specifically mention the man in the given image is 'a man in a suit with his right hand raised in a friendly wave with his palm facing forward'.

A scene of a man in a suit with his right hand raised in a friendly wave with his palm facing forward, with the same style as the geometric dog image on the left.

To address this issue, the sentence prompt should be modified to specifically mention the breed of the dog as a Yorkshire Terrier.

A scene of a man in a suit with his right hand raised in a friendly wave with his palm facing forward, with the same style as the geometric dog image on the left.

The image generated by the AI art generation model does not follow the user imagined IDEA of the scene as there is no study area in the image. To address this, the sentence prompt should be modified to specify that there should be a study area in the room, such as a desk with a lamp and a bookshelf.

The image generated by the AI art generation model does not follow the user imagined IDEA of the scene as there is no study area in the image. To address this, the sentence prompt should be modified to specify that there should be a study area in the room, such as a desk with a lamp and a bookshelf.
